

Students verify that a point lies on a line, given an equation of the line. Students are able to derive linear equations. 1A7.0

170. Which of the following points lies on the line $y = x$?

- A $(-4, -4)$
- B $(-4, 4)$
- C $(4, -4)$
- D $(-4, 0)$

171. Which of the following points lies on the line $4x + 5y = 20$?

- A $(0, 4)$
- B $(0, 5)$
- C $(4, 5)$
- D $(5, 4)$
